EU-Declaration of Conformity

in accordance with EU-Directive 2014/34/EU
on equipment and protective systems intended for use
in potentially explosive atmospheres

We declare under sole responsibility, that the products listed below are in compliance with the requirements of EU-Directive 2014/34/EU and that these products are not stand alone devices, but are intended for installation as a part of a machine or system, whereby operation is prohibited until such time as it is ensured that the machine or system, in its entirety, is in compliance with the EU-Directives.

Float-type Flowmeter, Series RVO/U-L2

The flowmeter is used for measuring and monitoring the continuous volume flow of gases, is suitable for use with explosion-proof limit switches labeled SG-15EX ***
(Type examination EPS 13 ATEX 1596 U).**

For these contacts, there is a separate Declaration of Conformity.

The float-type flowmeter, series RVO/U-L2, complies with the requirements of EU-Directive 2014/34/EU and is categorized as follows:

Interior of the flowmeter (Medium):

Equipment-group II, category 2 G, for gases of gas group IIB, temperature classification T5, T6

Marking: Interior  **II 2G Ex h IIB T5, T6 Gb**

Exterior of the Flowmeter:

Equipment-group II, category 2 G or 2 D, for gases of gas group IIC or combustible dust IIIC, temperature classification T5, T6 or T100°C, T80°C

Marking: Exterior  **II 2G Ex h IIC T5, T6 Gb**

 **II 2D Ex h IIIC T100°C, T80°C Db**

During the conformity appraisal procedures, it was found that no effectual ignition source is existent, if the device is employed and operated as intended and in compliance with all requirements of the operating instructions for RVO/U-L2 15x50 module BASICS and RVO/U-L2 15x50 module ATEX. Meister Strömungstechnik GmbH therefore affixes the Ex-marking under its own responsibility.

Conformity of the described product with Directive 2014/34/EU is proven through full compliance with the following standards:

Harmonized European standards:

DIN EN ISO 80079-36:2016

Explosive atmospheres - Part 36: Non-electrical equipment for explosive atmospheres - Basic method and requirements

DIN EN ISO 80079-37:2016

Explosive atmospheres - Part 37: Non-electrical equipment for explosive atmospheres - Non-electrical type of protection constructional safety "c", control of ignition sources "b", liquid immersion "k"

EN 1127-1:2019

Explosive atmospheres - Explosion prevention and protection - Part 1: Basics concepts and methodology
